NOTES

Camillo's commentary provides 1) grammatical and rhetorical observations; 2) Petrarchan *loci paralleli* and quotations of classical authors, such as Horace and Vergil, and religious authors, such as Paul the Apostle; 3) paraphrases of passages or explanations of the meaning of some words; 4) philosophical readings based on references to Porphyry, Plato, and Aristotle.

RVF 1 and 2 are quoted in full at fols. E2r-E2v and E10r-E10v respectively.

The first edition of the *Secondo tomo* of Camillo's works, which is added to his *Tutte le opere*, was printed by Giolito and edited by Lodovico Dolce and Francesco Patrizi in 1552. Camillo's collections of works have been printed several times in the second half of the sixteenth century in different and combined forms (i.e. only the first or the second part; a combination of the first and the second part from different years). For the purpose of clarity, the database includes all the different editions of the *Secondo tomo* of Camillo's works, namely the volume containing his commentaries on Petrarch.

The copy held at the Marciana library is bound with Giulio Camillo's *L'opere* (Venice: Agostino and Fabio Zoppini, 1584).
